

Installation ID:

Luxury Apartment

End Customer: Private owners

Location: Courchevel 1850, French Alps

Installer: UK-based Push Systems

Equipment: Crestron's HDBaseT-enabled 8x8 DigitalMedia™ Switcher(DM-MD8X8), including DM cards: HDMI® Input Card w/ Downmixing (DMC-HD-DSP), DVI/RGB Input Card (DMC-DVI), 2-Channel DigitalMedia™ CAT Output Card (DMC-CATO-HD), CAT Input Card w/Downmixing (DMC-CAT-DSP); Isys™ 8.4" WiFi Touchpanel (TPMC-8X).

Details: Luxury apartment in the upscale ski resort of Courchevel 1850 in the French Alps. Integrated installation of home control technology, including high-definition video & audio with HDBaseT, lighting, security and climate control. One of the key goals of the project was to ensure high-definition content on all displays, without loss of image quality or annoying switching delays, anywhere in the apartment, with a simple and intuitive user interface for easy control.

Why HDBaseT:

Ultimate elegance. High-definition distribution of content on all displays, without compromising performance or quality. Easy to use and to manage. Cable-clutter-free installation.
