

Installation ID:

Sports Bar

End Customer: Wash Park Sports Alley Bar & Grill

Location: Denver, Colorado

Installer: Tech Dwellings

Equipment: Key Digital's KD-HD8x8Lite HDBaseT/HDMI Matrix Switcher, (8) KD-CATHD250POHRx HDBaseT Receiver Extenders, Compass Control System

Why HDBaseT:

Simplicity and flexibility in installation. High performance and quality with distribution of uncompressed content. Easy control and monitoring. One cable connectivity for displays around all video zones in the bar.

Details: A bar & restaurant with multiple displays across several zones. Multi-zone video is accompanied by audio and lighting control. All displays are able to select and view any video source at any time and in any combination while also able to view any desired source (i.e. the "big game") on all displays. Compass Control utilizes HDBaseT to send control signals for audio and video over the same wire. The HDBaseT KD-HD8x8Lite Matrix Switcher was specified, delivering out uncompressed content for the patrons and enabling the bar and server staff to have complete control of each display with a touch of a button.
