

Installation ID:

The New American Home

End Customer: Showcase at the 2014 International Builders' Show

Location: Henderson, Nevada

Installer: Fuzion 3

Equipment: Atlona 16x16 AT-PRO2HD1616M matrix switcher. Additionally, Onkyo A/V receivers, Samsung flat panels, Screen Innovation home theater screen, and Vantage home automation system

Why HDBaseT:

Elegance provided by the out-of-the-way infrastructure, while guaranteeing high-definition video delivery from all sources to all displays. Easy management of video sources and switching through 3rd party controller and automation systems, either through wall-mounted touch panels or tablets mobile apps.

Details: The New American Home showcases the latest trends and concepts at the yearly International Builders' Show, including all aspects of homebuilding, such as engineering, architecture, interior design and landscaping, and technology. In 2014, the 6,700-sq.ft. luxury home included HDBaseT, to deliver clutter-free wall-mounted TVs, out-of-the-way equipment, and touch and remote control panels.
