Future-Proof

The Go-To Solution for High Quality Uncompressed Multimedia Distribution

Uncompressed HDMI 2.0 4K@60 4:4:4

HOW DOES IT WORK?

The HDBaseT Alliance

HDBaseT is the leading standard on the market for the convergence and long-distance distribution of multimedia content with no compression and zero latency.

Behind the technology stands the HDBaseT Alliance, co-founded by LG, Sony, Samsung and Valens. The Alliance boasts over 200 active members and thousands of interoperable, plug & play HDBaseT-enabled products.

**KEEP IT REAL,
KEEP IT UNCOMPRESSED**
