

Installation ID:

Hospitality & Retail

End Customer: Southbank Bar

Location: Nottingham, United Kingdom

Installer: Cable Guys

Distributor: CIE AV Solutions

Equipment: CYP PU-8H8HBTP-4K22 8 x 8 HDMI HDBaseT Lite Matrix; CYP PU-515PL-RX HDBaseT Lite Receivers; CYP EL-41PIP Integrated 4-Way HDMI Switch with picture-in-picture function; CYP QU-14S-4K 1-to-4 HDMI 4K UHD Distribution Amplifiers

Details: Southbank Bar wanted to provide their patrons, no matter where they sat in the bar, with high quality broadcasts of a wide variety of sporting events and other entertainment. The new audio-visual system commissioned from local AV specialists Cable Guys included the PU-8H8HBTP-4K22 HDBaseT Lite Matrix delivering 4K content, as well as HDCP2.2 compliancy, together with the CYP's Power-over-Cable HDBaseT Lite Receivers. In total, the system is comprised of eight sources: four Sky HD boxes; one band camera; a promotional computer delivering digital signage; a DVD player; and CYP's EL-41PIP picture-in-picture device, which supports up to four separate sections of content and overlays on the displays. Three CYP 8-by-8 matrices control all of the sources to all of the screens so that each can be configured quickly and easily to show whatever content is desired at the time.

Why HDBaseT:

- High-definition video quality
- Feature-rich and flexible, accommodating a wide range of devices
- Ease of expansion
